

SCUOLA
ALTI STUDI
LUCCA

The **Melting Pot Lucca school** is a private language school where we teach English and Italian for foreigners, both adults and children. Courses in French or other languages can also be activated should there be a request for them.

All classes are run by native teachers with many years of experience, highly qualified and with teaching certifications.

The school is located in Lucca, a stone's throw from the historic center.

The courses and the method

At the Melting Pot Lucca school it is possible to take individual and group courses. In both cases our method is based on a communicative approach, the activities during the lessons try to stimulate conversation and grammatical aspects are addressed according to the communicative purpose.

The first contact with the student is an assessment test: through a conversation and a grammar test the teacher assesses the starting level, and works out a course suitable for the learner (duration, timing, program), obviously taking into account the learner's needs and goals.

The educational offerings include: individual courses, "part-time" group courses of two hours per week, intensive courses, conversation courses, Business English, exam preparation courses and sectorial language courses.

We also organize and run courses for children aged 4 to 13.
